# PROGRAM DESCRIPTIONS

**U4/U5 Tots:** Age appropriate games and activities designed to engage young players while on the soccer field. Parents are welcome and encouraged to be on the field with their "partner" or child. Activities designed to increase agility and coordination. There will be a high degree of repetition from week to week to increase familiarity and comfort. Players need shin pads, water, and a size 3 ball.

**U6 & U8 Clinics:** These Sunday afternoon one-hour and 10 minute clinics introduce young soccer players to a fun, interactive and skills-driven way to play soccer, building and advancing everything learned in the younger programs. The program is designed to develop a positive relationship with the game, build confidence and comfort with the ball at their feet, and help kids feel successful through small group exercises for about 45 minutes followed by short 25 minute game each week. Each child will need sneakers or cleats, a size 3 soccer ball, shin pads and a water bottle. Sessions are co-ed.

**2nd Grade Clinic:** This co-ed clinic is for 2nd graders who have experience playing soccer in our summer, fall or spring programs or an indoor league and are ready to play U10 next spring or summer. This 6-week game-focused clinic will introduce technical aspects of the game such as goal and corner kicks, throw-ins and defensive and offensive play while building endurance on a larger field. Each child will need sneakers or cleats, a size 4 soccer ball, shin pads and a water bottle.
