

God and Goddess Resume

Resumes are important documents prepared for potential employers or enrollment in programs (such as college). Their purpose is to summarize and highlight background information as well as to give key skills about a person.

Task: You are going to create a resume for the god or goddess you are assigned to. After reading the short article and completing the index card from your folder, as a team you will find the following information to include in the resume:

- Name
- Address
- Interests
- Responsibilities
- Skills
- Special Achievements
- Experience

Once you have answered all the above prompts your team will select an occupation, or job, for your god or goddess to apply for. Mythology serves three purposes: to explain (advertisement), entertain (actor/actress), and educate (a teacher). Choose one of the occupations listed that best suites your god/goddess. You will come up with a design for a business card complete with a catchy slogan.

Your group will present your god/goddess' resume, portrait, and throne to the class.

FCA's

1. Name, address, interests, responsibilities, skills, special achievements, and experience are included (60 points)
2. Information is given in proper format (30 points)
3. Business card includes slogan, is neat, and colored (10 points)
